## Medical / Health Knowledge e-learning Volumes [www.missionindia.biz](http://www.missionindia.biz)

**TIFAC** embarked on a major long-term technology forecasting and assessment exercise – Technology Vision 2020 on the national level encompassing various technology areas. A detailed survey of key areas in major infrastructure advanced technologies and technologies with socioeconomic implications was taken up. In a span of two years, over 5000 area experts from the industry, Government, R&D agencies and academia were brought together for a thorough survey of shared opinion in select areas.

According to Technology Information, Forecasting and Assessment Council (TIFAC), CD-ROMs with storage capacity of 1.6 GB of data have been instrumental in fast information retrieval and access. Use of multimedia for storage of text, graphics, video, sound etc. Has immensely benefited the information storage system. All these technologies are used extensively by the banking a financial services sector."

We come up with Total Digital Solutions in the related sectors. With the Innovations in Multimedia solutions, hence it contributes a vital link in the field of Information Technology (IT) Mission CD/DVD Authoring India will be a total solution for e-governments & e-books, the up gradation from that of manual to digital domain.

### Mission Brain Theory CD/DVD Authoring India (2003 – 1010)

"Brain Theory" has it that our brain has two hemispheres (commonly called the right brain and left brain), which think in different way. Our right brain is visual and processes information by looking first at the whole picture then the details. Our left brain is verbal and processes information by looking first at the pieces then putting them together to get the whole. Our right brain is more intuitive; our left is analytical and sequential.

### Tele-education (e-learning) Methodology:

- Virtual University
- Knowledge hubs
- Tablet PCs
- Content Management
- Interactive Portal
- Interactive Applications
- Interactive Content Based Database (CD/DVD/WEB/KIOSK)
- Online digital Library (e-books)
- Chat
- Audio/Visual Online Theatre (Video on Demand)
- Tele-Conferencing
- Remote Access Learning
- M-learning
- Research & Development Consortium
